Hello All,
I just had a good chat with Kevin Donaldson at Miccosukee. They definitely want to consult on Florida's 404 assumption. They would like to combine programmatic with NHPA because their offices are also combined. They envision having Kevin, Gene Duncan, Attorney General Jeanine Bennett and perhaps their wildlife director present. They plan to attend the webinar tomorrow, and will set up at time for consultation ASAP.

Thanks,
Katie

That sounds good, Katie. Thank you for connecting with her. I hope the loss of power, disruptive as it is, is the worst of the storm troubles for her and the tribe.

All,
I had a good long conversation with Kristi at Poarch this afternoon. The Tribe is without power, and she does not have power at home either. The power company estimates her power at home will return on Tuesday. She committed to touching base with the Poarch THPO next week. If I haven't heard from her by Friday I will give her another call. Sound good?
-Katie

Katie - I'll call in a moment to follow up re: Poarch & Miccosukee. Good news is that I did connect with Kevin Cunniff of the Seminole this morning.

The tribe has indeed authorized Rachael Santana to represent them in communications for a combined consultation (CWA/general and NHPA), so we can continue communicating with her, and should cc the following four people from the two offices of the tribe

Kevin Cunniff, Director, Env. Resource Management Department

Mr. Stacy Myers, Senior Scientist

Paul Backhouse, Sr. Director of HERO, Tribal Historic Preservation Office PaulBackhouse@semtribe.com

Anne Mullins, THPO Director AnneMullins@semtribe.com

FYI – Seminole THPO directors & contact info: <http://www.stofthpo.com/Contact-Us-Seminole-Tribe-FL-Tribal-Historic-Preservation-Office.html>

The Heritage and Environmental Resource Office (HERO) of the Seminole Tribe of Florida (STOF), which consists of the Tribal Historic Preservation Office (THPO), the Ah-Tah-Thi-Ki Museum, and the Environmental Resource Management Department (ERMD), is currently conducting several environmental initiative projects.

They also indicated that they would like Mary to be at the table, and will include directors for both departments (Environmental and Historic), as well as their Executive Director for Operations, Andrew Bowers.
